## Profile:

I am a dedicated, hardworking person who has accumulated a wealth of industry relevant skills. I aim to become part of a team at a reputable company where I can continue to pursue my passion for software development.

I work well within a team environment as well as working using my own initiative, and can offer solutions to difficult problems. I pride myself on my communication and leadership skills and a professional work ethic.

My current development background revolves heavily around JavaScript and PHP however, I also have an excellent working knowledge in many other coding languages and frameworks.

Free time outside of office hours is dedicated to help improve the tools and standards used by myself and others throughout the development community, I also improve my understanding through attendance of conferences and meet ups.

Reading and watching a variety of media based on all aspects of computing is a hobby and I also participate in sporting activities such as snowboarding, gym and football.
